

# ARTS BADGE

*Art covers painting, music, writing, acting, and much, much more! But, regardless of what tools an artist prefers to work with, they have one thing in common with all the others: a love of finding new and exciting ways to express their creativity! The service projects you design here will help support art and artists in your community, just like you.*

## Fun Facts about the Arts!

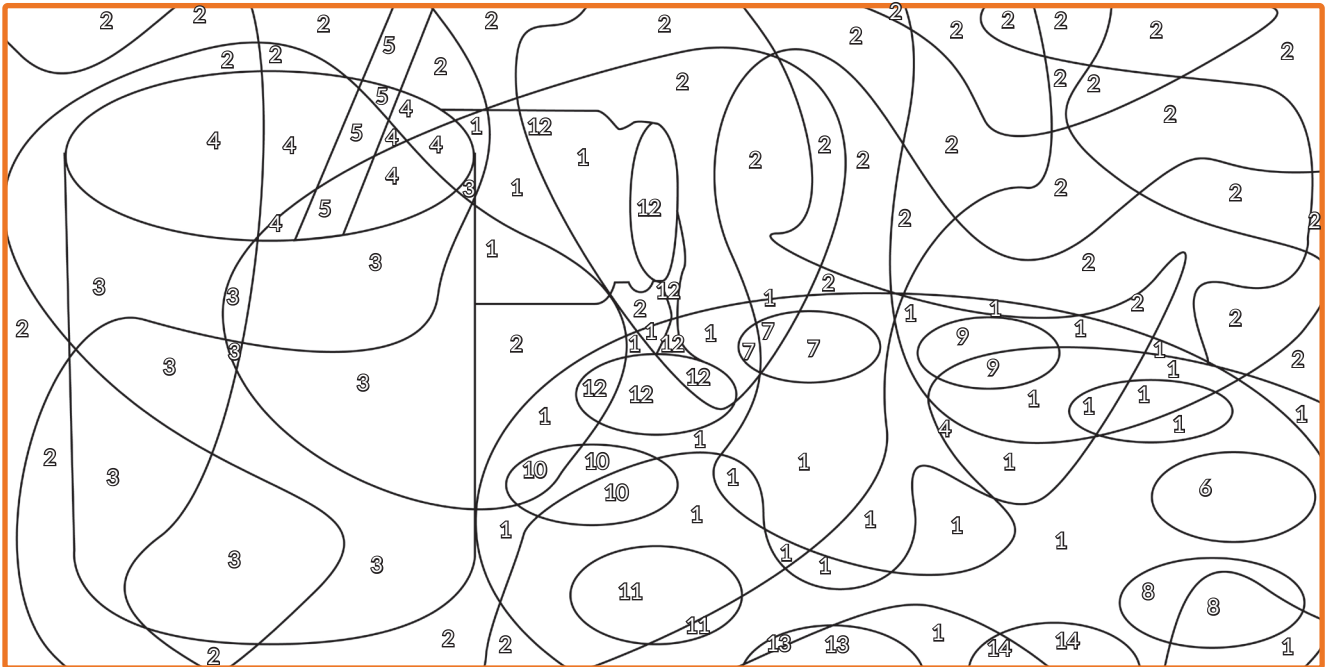

- The first public art museums started in the late 1600s, but their numbers didn't really grow until the mid-late 1700s.
- Students who receive arts education are less likely to drop out of school and more likely to complete college.
